## Overview of Products

Dānay Design™ has over 1,000 products that you can purchase directly online in these categories:

### Compassion in Art™ 2D Character Cut Outs

Printed on 1/4" pvc and laminated. Use these cutouts on top of murals or with Hallway Excursions™ designs. Place them on doors, columns, along hallways, waiting areas and patient rooms. Compassion in Art™ can be used anywhere that patients, visitors and staff can benefit from relaxing artwork designed specifically for stressful healthcare environments.

### Window Decals

Laminated, premium vinyl. Easy to peel and stick. Hospitals and clinics are full of windows. Create tasteful atmosphere with hospital appropriate Compassion in Art™ Characters. An affordable way to add color and life to a hallway, unit or patient room. Ask for a reverse of an image to put on the other side of the glass so the artwork can be seen from either side. Or ask for translucent, rather than opaque decals so the light will shine through the images.

## Overview of Products

### 3D Mural Packages

Round and oval murals printed on 1/4" substrate with attachable hand painted resin figures. A mural package constitutes a mural and includes 3D elements that attach to the mural. The murals are printed with archival inks on high quality canvas then applied to a 1/4" circle or oval. Then it is clear coated so it can be wiped down if fingerprints appear. We send you a schematic so you can see how we recommend lining up the 3D characters on the mural. You can add additional pieces and accessories such as glass bubbles if you want an even more dynamic appearance. 3D Mural Packages make it easy to purchase a complete kit of artwork to change the appearance of a large area. You can surf our ready to buy Mural Packages starting on page 13.

## Overview of Products

### 3D Wall Art

Resin bird designed with a keyhole on back to lock securely onto a screw on the wall or on top of a mural. These are very dimensional characters that can be used in so many ways. They can trail down a hallway with some Hallway Diversion™ waves or attach to a mural. Sign up for our free newsletter so we can send you ideas monthly on how to find solutions to your lack luster areas. Spruce them up and make an impact with quality artwork designed specifically for healthcare environments.

### Light Panels

48" x 24" x 1/8" Plexiglas panel printed with original artwork easily installed in existing ceiling light fixtures. Light streams through the panel illuminating the artwork and creating softer lighting in the room.

## Services

**Consultation** – Whether you are purchasing in stock artwork, or wanting to develop your ideas for a more comprehensive design project involving custom fabrication, this is where the process begins.

### **Option 1 Consultation**

Our Creative Team at Danay Design will meet with you and listen to your vision for the proposed areas that you want to transform. We listen to your requirements to get a clear sense of your goals and budget. After we assess your needs we can then exchange ideas and recommend creative options. We look at your time frame and budget and help you with the important details of the process so you can make beneficial and practical decisions.

For a separate fee we will submit a report with our recommendations.

\$200. per hour plus travel expenses. Price quote invoice will be emailed prior to service.

### **Option 2 Round Table Video Conference**

We meet with your team via online conference host to brainstorm possibilities, theme, options and practical considerations and provide you with a checklist of information to obtain before considering what your costs will be. Our combined creativity and experience designing for healthcare environments since 1985 will be available to you for two hours. We then provide a synopsis of what was discussed and our recommendations and present in pdf format. Cost \$2200. We will call you for a preliminary conversation and to schedule a convenient time.

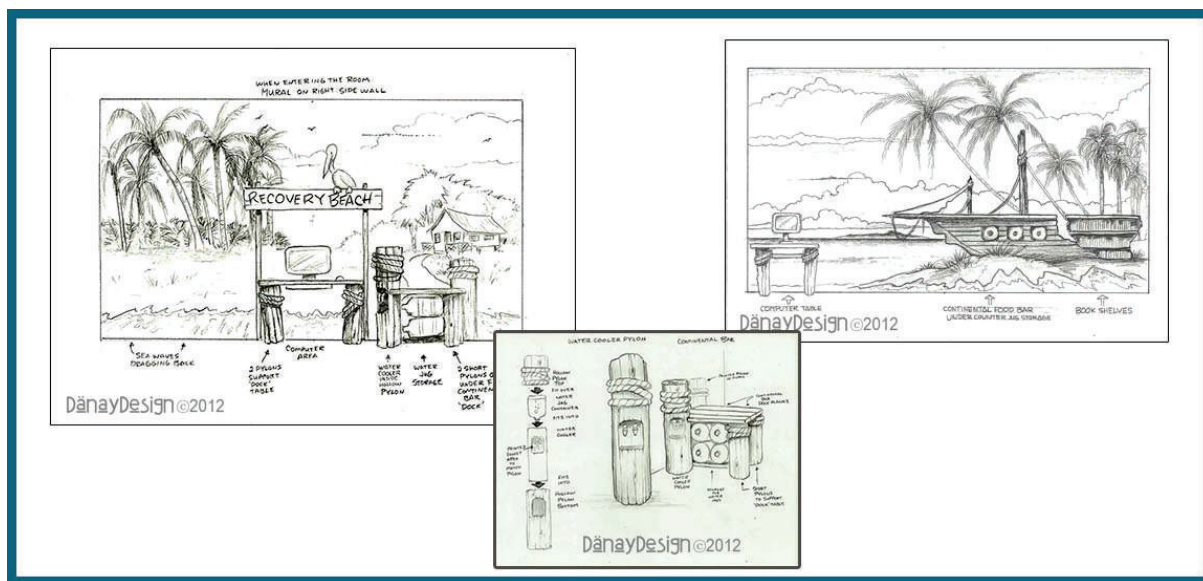

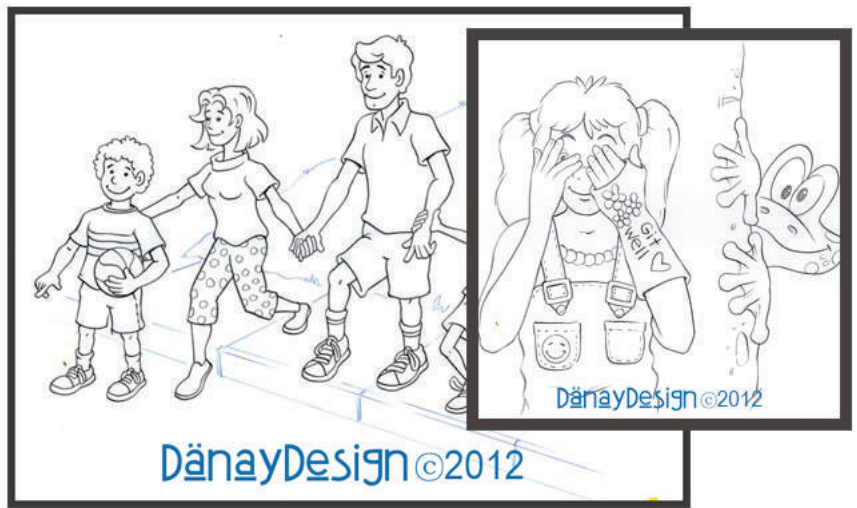

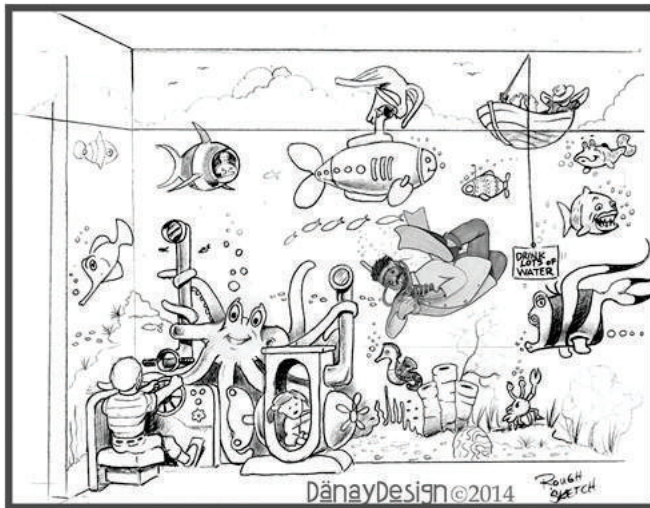

Invoice will be emailed prior to service.

# Services

## Sketches/Renderings

The design process begins with a consultation, either by phone or in person. Next, we present a rough sketch to convey the ideas that were discussed. Once we have captured your vision on paper or digitally we can move into the Development Phase of the project. We want to earn your trust to create the very best outcome that represents your branding and desired theme within your budget. We include these examples to show you how you can work with us and what you can expect:

## Rough Pencil Sketches or Concept Drawings

See more examples of rough sketches, full color renderings, and artistic proposals on our website

## Services

### Color Rendering

Once a basic design is drawn and approved, we present a color rendering of the artwork for final approval.

### Artistic Proposal

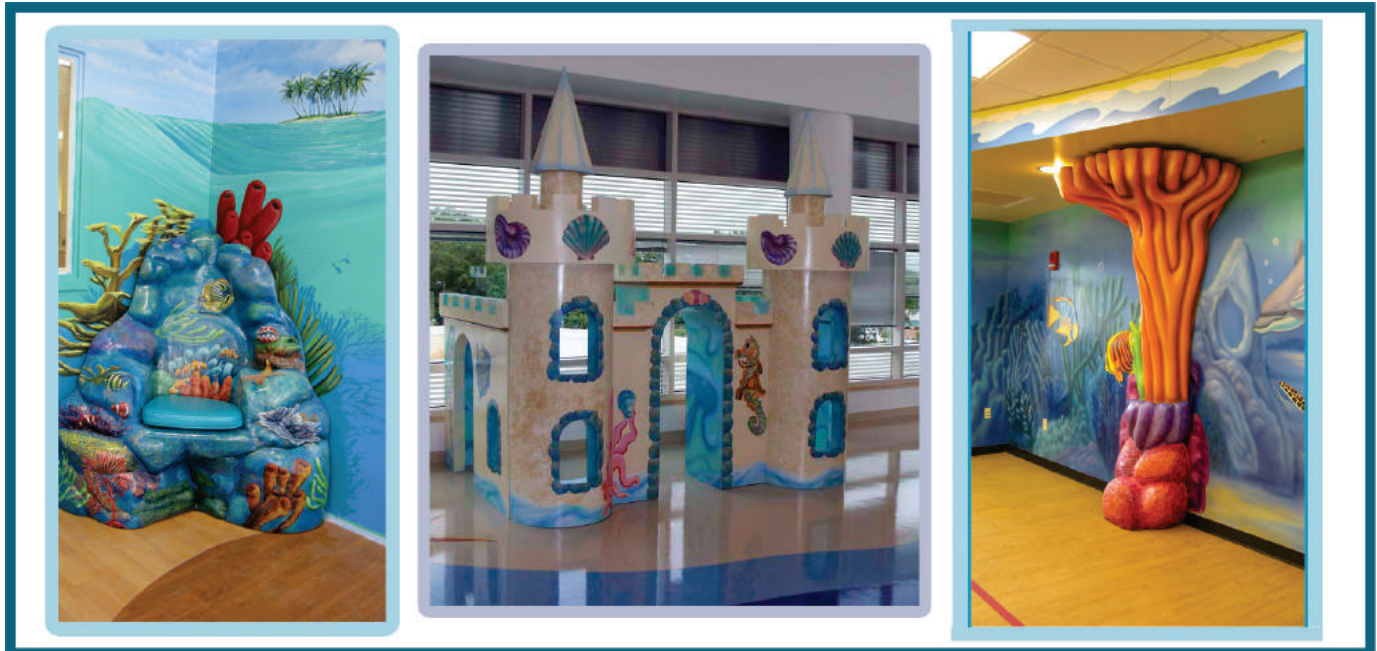

Our digital team uses a photo provided by the client of an existing area that needs a facelift to show the transformation that is possible.

## Services

### Custom Fabrication

To see more samples of custom projects look under “Services” on the website.

### Installation

Installation instructions are included with our online products. We are available to install artwork if the purchase price exceeds \$5,000. Custom fabrication involving on site installation will be quoted with the project price.

# INTRODUCING . . . . .

# DanayDesign™

*Compassion in Art!™*

*Healthcare Design for Patient Satisfaction!*

## Compassion in Art!

Danay Design™ has developed their Compassion in Art™ line to bring softness, benevolence and empathy into the environment. In hospital areas where patients are suffering, fearful and uncertain, design is critical to facilitate calm, comfort and a feeling of trust.

According to Fred Lee, in his book “If Disney Ran Your Hospital”, assurance, compassion and empathy are the words most stated by patients that are lacking in hospitals. Visitors and staff also have a level of stress and benefit from compassionate characters, flowing artwork and soothing colors. It’s simple. If you want loyal customers, give them what they are asking for. Make your walls, floors and ceilings say, “we care about your comfort and empathize with your pain.”

When you choose to display Compassion in Art™ in an entire unit, we will send you this plaque with the name of your facility to display in your unit as a symbol of your efforts to provide an optimal environment for your faculty, staff and patients. You can proudly display the Commitment to Compassionate in Art™ Seal in your own facility. The best patient experience begins with first impressions. Let your hospital culture reflect compassion and comfort starting with your artwork.

Now can you get started transforming your hospital environment with Compassion in Art™! Peruse the following pages and make your selections for Floor Graphics, 2D Compassion in Art™ Cutouts, and Window Decals.
